FINISHES

PRODUCT

DESCRIPTION

NATURE

PACKING

Bio Sour L

(Liquid Laundry Sour with Rust Remover)

Liquid laundry sour and rust remover. Excellent bi-carbonate neutralizing value.

Liquid

25 Ltr Can

Bio Sour Plus

(One shot chlorine and alkali neutralizer)

This product neutralize chlorine residues and bicarbonate (alkali) in one shot. Also it de-odorize chlorine and brightens the linen. It is carried by an organic base and safe to use on all kind of white linens and textiles. This product can improve the whiteness and strength of the treated textiles and reduces the lint loss.

Powder

25 Kg Bucket

Bio Size L

(Perfumed Instant Liquid Starch)

Perfumed liquid sizing agent for the use in commercial laundries. It is highly concentrated for economical use and adds stiffness and body to fabrics while protecting fabrics from stains. Recommended for use on sheets, uniforms, table linens, shirts and other cotton, polyester or blended fabrics.

Liquid

25 Ltr Can

Bio Size

(Powder Laundry Starch)

Starch based size intended for high quality finish. It doesn't congeal after cooking and therefore doesn't require re-warming after use. Cooked starch can be applied more uniformly than raw, because it penetrates the fabric better and gives good finish to the fabric.
